Backend and DevOps engineer with 3+ years of experience building production systems in TypeScript. I design NestJS APIs, PostgreSQL schemas, and the cloud infrastructure behind products now used by 50,000+ creators, with delivery speed boosted through AI-assisted engineering.

WORK EXPERIENCE

Backend Developer & DevOps — Scribble Network

Mar 2023 – Present

TypeScript, NestJS, PostgreSQL, AWS, GCP, Docker, Terraform | Bengaluru

- **Platform Ownership:** Own backend architecture, database design, and cloud infrastructure end to end, growing the stack from an early Drupal site into a modern TypeScript and NestJS platform.
- **AI Ad Network (Kili):** Built and launched Kili, an ad marketplace for AI products, now live with **250+ daily active users** and payouts settled through Stripe and stablecoins.
- **AI Visibility Platform (Scribble for Brands):** Built the backend that tracks AI citation share across ChatGPT, Gemini, and Perplexity; helped a flagship client grow citation share **from 2% to 20% in 3 months**.
- **Creator Marketplace (Scribble for Creators):** Built the platform serving **50,000+ active creators**, driving **\$500,000+ in payouts** across **800+ brand campaigns** with a **72% average win rate**.
- **AI-Accelerated Delivery:** Set up CI/CD pipelines on AWS and GCP with GitHub Actions and Terraform; using Cursor and Claude Code, cut a typical **one-week feature down to a single day**.
