Backend and DevOps engineer who ships production TypeScript systems. Designs NestJS APIs, PostgreSQL schemas, and the Docker, CI/CD, and GCP infrastructure that keeps them running. Currently building Kili and Scribble, with a track record of migrating live applications, applying hexagonal architecture, and using AI tooling to work at 10x efficiency.

EXPERIENCE

Backend Developer & DevOps — ScribbleDao	Jan 2025 – Present
- Own end-to-end system design, database schema, and testing for Scribble, a platform where creators write threads and brands run visibility campaigns. - Ship features roughly a week faster than baseline by pairing Cursor and Claude Code with the existing architecture.	
Stack: TypeScript, NestJS, PostgreSQL, TypeORM, DrizzleORM, GCP, GitHub Actions, Docker, Terraform, Grafana, Loki, Cursor AI, Claude AI	
Backend Developer & DevOps — RabbleLabs	Jun 2024 – Jan 2025
- Owned backend and infrastructure for a crypto-native Telegram chat product with username-based payments, plus Rabots, an automated DeFi yield system. - Built and ran GitHub Actions CI/CD pipelines on self-hosted GCP runners.	
Stack: TypeScript, NestJS, PostgreSQL, TypeORM, GCP, Nginx, GitHub Actions, Docker	
Full Stack Developer — BuidlersTribe	Aug 2023 – Jun 2024
- Promoted after leading the Drupal-to-MERN migration; owned new features, production fixes, and frontend architecture. - Introduced hexagonal architecture for maintainability and a GitHub Actions CI/CD pipeline on self-hosted AWS runners.	
Stack: TypeScript, NestJS, Next.js, Tailwind CSS, React Query, Redux, PostgreSQL, TypeORM, Docker, AWS, GitHub Actions	
Backend Developer — BuidlersTribe	May 2023 – Aug 2023
Migrated a limited Drupal site to a fully customizable, performant MERN application, following MVC conventions.	
Stack: TypeScript, Node.js, Express.js, REST, MongoDB, Mongoose	

FEATURED PROJECTS

Kili AI	2026
Ad network for AI products that matches conversation intent to brand campaigns and places ads around answers in chat and Claude Code, with settlement via Stripe Connect or on-chain USDC.
